4. AQUATIC INVASIVE SPECIES:

A. Prior to entering the body of water, all watercraft that have been in waters known to be infested with zebra mussels, must be thoroughly dried or washed down with hot water of at least 140 degrees Fahrenheit, both inside and out.

B. Participants must clean all aquatic vegetation from trailers and watercraft, including wet wells and other internal locations, upon leaving the lake.

TO HELP PROTECT ALL WATERS, YOU MUST:

1. **CLEAN** visible aquatic plants, zebra mussels and other prohibited species from watercraft, trailers, and equipment before transporting from any water access.

2. **DRAIN** water from bilge, live well, motor, ballast tanks and portable bait containers before leaving water accesses or shoreline property.

3. **KEEP** drain plug out and water-draining devices open while transporting watercraft.

4. **DUMP** unwanted bait in the trash.

C. All State laws must be followed to ensure watercraft is clean and decontaminated. This can be achieved with the aid of hot water as mentioned above, drying for extended periods of time (5 days or longer) and having the watercraft power washed to rid the watercraft of all zebra mussels.

5. PERMITTED FISHING LOCATIONS:

A. Contestants may fish anywhere on any body of water accessible by boat, except designated federal, state, or local posted or permitted areas.

B. Contestants may not fish within 75 feet of another competitor's boat which was solely and first anchored before another competitor's boat was inside the same 150-foot circle. A boat is considered anchored only if it is tied to a fixed structure or has an anchor line over its side with the trolling motor out of the water and a yellow marker placed in the water. When the marker is placed in the water, it will establish a 150-foot fishing circle which may not be fished or navigated through by another competitor. A marker may not be placed in water currently being used by competitors or non-competitors. Violators of this rule or the intent of this rule will be disqualified.

C. All angling must be conducted from the boat. At no time may a contestant leave the boat to land a fish or to make the boat more accessible to fishing water. The boat must remain in the tournament water during the tournament day. Contestants must leave and return to the official checkpoint by boat and must remain in contact with the boat at all times except in case of emergency.

6. SCORING:

Scoring shall be determined by the length of each person's catch during the tournament. Walleye, bass, crappie and northern pike are the only accepted species. The official length for walleye and bass shall be twelve (12) inches. Crappie must be at least 8 inches and northern pike must be at least 20 inches in length. Each person's fish must be uploaded to the FishDonkey application.

7. LATE PENALTY:

Contestants who fail to upload their catch on the FishDonkey app at the appointed time shall have their day's catch disqualified.

8. TIES:

In case of ties, positions will be determined by:
